

STATEMENT OF PURPOSE

RS18250

The proposed legislation will establish a five-year registration interval for HVAC apprentices and a two-year registration interval for specialty HVAC apprentices. By adopting the multi-year registration, the Division avoids a large increase in fees necessary to support annual registrations. The proposed legislation reflects changes suggested by affected parties last year.

FISCAL NOTE

Approval of the proposal would decrease annual revenues by five thousand dollars (\$5,000.00).
